GA7...Highway construction and maintenance is funded in part through taxes on gasoline, in addition to the sales tax and other funds that all residents pay into. Many state legislatures are considering bills that would place new or higher annual fees on electric vehicles because owners of electric vehicles do not purchase gasoline for their vehicles. Which of the following statements about electric vehicles comes closest to your view, even if none are exactly right?

Response	Percent	Weighted N	N
Owners of electric vehicles should not have to pay annual electric vehicle fees.	26%	206	209

GA11...Which of the following statements comes closest to your view, even if neither is exactly right?

Response	Percent	Weighted N	N
The two new units at Plant Vogtle are now about 80% complete and are anticipated to be in service by the end of 2021 and 2022, respectively. Georgia Power should finish construction on the new nuclear plants as they will power more than 500,000 homes and businesses for the next 60 to 80 years with reliable energy that does not contribute to climate change.	60%	477	477
When construction started on the new nuclear units in 2009, the project was expected to cost billion and be finished in 2017. Now, the project is not expected to be completed until late 2022 at a cost of more than billion.
